

Wake up and STOP stifling the free markets which fuel our economy! H.R.4026 is ludicrous--it is a hideous example of cronyism. The Pickering-Green Show should take their act to the other side of the aisle where, apparently, this type of shenanigan is commonplace. Attempting to appease the sole interest of the NAB dinosaur and its handler Eddie Fritz under the guise of public safety and welfare is a true farce. I am personally insulted by this mockery of legislation. If the NAB had their way, H. M. Blackwell would still be selling us apartments in Jackson Heights.
